

# COVID-19 Return to Work Strategies

Ready to open? What do you need to address before you can?  
Confidently re-open your doors!

## IMAGINE YOUR PEACE OF MIND KNOWING:

- Workplace practices are always up to date with the latest CDC guidance
- Staff (and clients) are confident and aware of safe COVID-19 prevention practices and risk mitigation strategies
- Contact tracing practices are comprehensive, appropriate, and address privacy and confidentiality concerns
- Changing COVID-19 risk landscape (e.g., vaccinations, waves of infection) are addressed
- OSHA regulations and local labor laws are addressed in your company policies

## GAPS AND OPPORTUNITIES

- COVID-19 has changed all of our worlds. Deciding what and how to implement return to work policies can be intimidating. Compliance with OSHA regulations to keep workers safe is essential but represents new challenges for workplace safety. This is compounded by the novelty of SARS-COV2 (coronavirus) and the fear and miscommunication around COVID risk.

With so much unknown and change, it can be difficult to know what is enough or too much as far as process in an environment of ever-changing public health guidance.

## OUR SOLUTION

We are a team of public health experts and management consultants, ready to interpret and implement the latest public health guidance to help you re-open or stay open by minimizing employee risk of COVID exposure in the workplace.

We offer services including:

- Evaluation and recommendation of safe workplace policies (including comprehensive contact tracing)
- Strategic communication around best practices
- Effective COVID prevention program evaluation
- Outsourced Chief Public Health Officer
