

Medical Writing and Medical Editing

We understand that your internal medical writing capacity may be strained by hiring challenges, turnover, busy seasons and managing multiple large-scale projects. Our dedicated team of medical writers will work directly with your team to make sure your projects are executed with flawless detail. We work across functional teams to support medical, commercial, and regulatory writing challenges..

The value of a scientifically grounded perspective

- Expertise across major therapeutic areas
- Writing is created in the context of existing scientific trends and concepts
- Thoughtful messaging aligned with most up-to-date language in disease area
- Targeted purposeful writing for any stakeholder to share information, change misconceptions or impact behavior
- Content consistent and compliant with regulatory standards
- Scientific abstract/publication writing and editing with appreciation for what is required for manuscript success

ABSTRACTS AND MANUSCRIPTS

HCP AND PATIENT DISEASE STATE AWARENESS

MSL AND OTHER MEDICAL EDUCATION MATERIALS

SCIENTIFIC POSTERS AND PRESENTATIONS

PROMOTIONAL AND REGULATORY DOCUMENTS

OUR SOLUTION

We provide reliable expertise in both content areas and general scientific writing for science and non-science stakeholders. With over 20 years of experience working in academic, life sciences, nonprofit and government research settings, we have crafted the ability to successfully communicate research outcomes to strengthen both funding and patient engagement. We appreciate what is required to successfully publish and communicate with the scientific community and understand how and what to write for various audiences making medical writing easier and more efficient.

EXPERTISE IN ACTION

- Written over 150 papers, 200 abstracts, and multiple scientific presentations
- Developed sales team training materials to support roll out of deep science HIV virtual reality tool
- Created technical and prevention materials for disease state awareness on nutrition and cardiovascular disease in multiple languages and reading levels for minority and disadvantaged patient populations
- Developed cancer (breast, cervical, prostate and ovarian) education and health promotion materials for community health care providers and key opinion leaders (KOLs)
